

## **ACI Information Group Wins SIIA Business Technology CODiE Award for Best Scholarly Research Information Solution**

*ACI Scholarly Blog Index, published by the ACI Information Group, has been named the Best Scholarly Research Information Solution of 2016 as one of the SIIA CODiE Award winners.*

ACI Scholarly Blog Index, published by the ACI Information Group, has been named the Best Scholarly Research Information Solution of 2016 as one of the SIIA CODiE Award winners. The CODiE Awards bring attention to the software and information industry's finest products and services and all products are judged by industry experts. The Software & Information Industry Association (SIIA) is the principal trade association for the software and digital content industries.

The announcement of ACI Scholarly Blog Index as a CODiE winner was made by SIIA on May 18, 2016 to an audience of over 300 industry leaders. A total of 61 CODiE Awards were given for products and services developed specifically by business to business software, information, and media companies. [View a video of the announcement.](#)

“ACI Information Group is honored to receive this recognition from SIIA members,” said ACI Information Group President Larry Schwartz. “As the world’s leading aggregator of editorially selected and curated social media and blog publications, ACI is revolutionizing the way people conduct research by enabling them to find over one million scholarly blog posts that they might otherwise miss. Winning a 2016 CODiE Award confirms that our innovations in scholarly research technology are delivering the tools researchers need to develop essential academic insights and discourse. “

An SIIA CODiE Award win is a highly respected honor. Each award winner was reviewed by a field of industry experts whose evaluations determined the finalists. SIIA members then reviewed the finalists and their votes were combined with the scores from the industry experts to select this year’s CODiE Award winners.

“SIIA’s 2016 Business Technology CODiE Award winners are some of the most innovative products impacting businesses across the world. Recognized by their peers, the CODiE winners should be proud of this prestigious accolade honoring excellence in business technology products,” said Rhianna Collier, VP & Managing Director for the Software & Services Division of SIIA. “We congratulate all of this year’s CODiE winners, and thank them for the contributions they have made to their industries.”

Details about the CODiE Award winning products can be found at <http://www.sii.net/codie/2016> [Winners](#)

### About ACI Information Group

ACI Information Group ([www.aci.info](http://www.aci.info)) is the world’s leading aggregator of editorially selected and curated social media and blog publications. With over 10,000 news and commentary blogs and more than one million scholarly blog posts in its Indices, ACI is revolutionizing the way people conduct research by enabling them to find the content they’ve been missing. Professionals, researchers, scholars, and students use the highly authoritative insights and analysis provided through ACI’s editorially selected collection of social media publications to find information that is unavailable in traditional media and journals. Publishers choose to include their content in the ACI Index to reach new audiences and bolster real-time scholarly communications and post-publication discourse.

#### About the SIIA CODiE™ Awards

The SIIA CODiE Awards is the only peer-reviewed program to showcase business and education technology's finest products and services. Since 1986, thousands of products, services, and solutions have been recognized for achieving excellence. For more information, visit [siiia.net/CODiE](http://siiia.net/CODiE).

#### About SIIA

SIIA is the leading association representing the software and digital content industries. SIIA represents approximately 800 member companies worldwide that develop software and digital information content. SIIA provides global services in government relations, business development, corporate education and intellectual property protection to the leading companies that are setting the pace for the digital age. For more information, visit [www.siiia.net](http://www.siiia.net). The Software & Services Division of SIIA (SSD) represents companies that develop the applications, services, infrastructure and tools driving the success of today's high-tech industry. For more information, visit [www.siiia.net/SSD](http://www.siiia.net/SSD).
